Professional Experience

Full-Stack Developer

Jun 2025 - Present

Evince Development

- Architected and built 20+ independently deployable Angular and .NET Core Web API modules on DotNetNuke (DNN) CMS, integrated with Microsoft Dynamics ERP via REST API for a B2B e-commerce platform serving licensed business buyers.
- Engineered AR credit checkout, curbside pickup scheduling, and payment gateway integration; implemented Cloudflare Turnstile CAPTCHA, and Google Analytics e-commerce event tracking.

Software Developer

Jan 2023 - May 2025

Shaligram Infotech

- Designed and delivered 9 full-stack web applications — ERP dashboards, fitness management, task tracking, kiosk admin portals, and analytics platforms — using Angular, .NET Core REST API, and SQL Server.
- Improved SQL database query performance by 40% through indexing optimization; reduced API response times by 32% using Redis caching; deployed all applications on AWS EC2, S3, and RDS.
- Integrated Stripe payment gateway and AI chatbot workflows across 3 projects; deployed applications using AWS, Cloudflare, and CI/CD pipelines.

Selected Projects

Gecko Customer Portal - [Live Demo](#) | [GitHub](#)

Angular | .NET Core | Stripe | Razorpay | Firebase | Hangfire | Azure AI | Cloudflare

- Built a B2C e-commerce web application with 2 subscription tiers; integrated Stripe and Razorpay payment gateways (Pro tier: 20% auto-discount), Google OAuth, Firebase push notifications, and Hangfire background job scheduling.
- Developed an AI-powered chatbot using Azure AI and Grok AI (LLaMA 3.3 70B) via Cloudflare Worker with real-time database API calls; deployed on Cloudflare CDN with Google Search Console and AdSense integration.

Gecko Admin Portal and API - [Live Demo](#) | [GitHub](#)

Angular | .NET Core Web API | JWT | Hangfire | Stripe | Azure Functions | SQL Server

- Developed admin dashboard with analytics charts, coupon management, and contact inbox; built JWT-secured REST API serving both portals; automated monthly sales reports using Hangfire and Azure Functions.

Personal Developer Portfolio - [Live Site](#)

Angular 17+ | Cloudflare Workers | Grok AI | Make.com | Zapier

- Built AI assistant chatbot (Grok AI via Cloudflare Worker) with conversation history; automated contact form using 4-step Make.com workflow; integrated Zapier and Supademo for task automation and in-app product demos.

B2B e-commerce Platform (Client - Confidential)

DotNetNuke | Angular | .NET Core Web API | C# | SQL Server

- Delivered 20+ DNN web application modules each with Angular SPA and .NET Core REST API backend; built B2B checkout flow, curbside pickup scheduling, and embedded analytics reporting.
